Iron Essence & Finesse

Metal Collection

With the enduring look of hand-forged iron, this collection's classic style engages handsomely with a wide range of decors. The Iron Essence line offers six finishes in custom widths, and includes bay and corner applications. Layered treatments are easily achieved through the use of an optional double bracket.

Fortunato Decorative Traverse Rods

Decorative Traverse Rods Specifications & Options

Decorative Traverse Rods

Horizons Decorative Traverse Rods are drapery traverse rods with a decorative 2" wood fascia attached. They are custom cut to the exact size ordered and include a single or double traverse rod, finials, returns, end caps, brackets and screws. They are available in all the styles and colors of the 2" Wood Collections on pages E7-E10.

Size Limitations

Max Width:	188"
Max Width without decorative splice:	92"
Minimum Width:	30"

Note: The ordered width of the Decorative Traverse Rod should equal the drapery width. See Return or Finial sections on this page to determine the actual rod width.

Spliced Rods

All rods over 92" are constructed as two pieces with a 3/4" capped decorative splice.

Note: If smaller rods are mounted in the same room, a decorative splice may be ordered to match the larger rod's appearance at no extra charge.

IM Deductions

The workroom will deduct 1/4" from the width of the decorative traverse rod when mounted between two walls. The ends of the rod will include 3/4" color-coordinating wood caps.

Wall Mount Only

Decorative Traverse Rods are not available as ceiling mounts and require 1-7/8" of mounting surface above the window opening.

Pin Settings

Recommended Pin Settings for Draperies with a Decorative Traverse Rod:

Single Traverse Rod	1/2"
Double Traverse Rod (over)	1/2"
Double Traverse Rod (under)	1-1/2"

Double Traverse Rods

When a double Traverse rod is ordered, only the front rod will be covered with the decorative fascia. There is no extra charge for a double rod.

Under Treatments

We recommend the Pinch Pleat style for the under treatment when ordering a double Decorative Traverse Rod. Indicate on the Drapery order form that the drape is an under treatment. The workroom will adjust the height so the under treatment covers the back rod and is 1/2" shorter than the front drape (or over treatment).

Dust Cover

Horizons Decorative Traverse Rods are constructed with a 3" color coordinated dust cap.

Returns

Returns with color-coordinating 3/4" wood caps are available in place of finials at no extra charge.

Recommended Return Sizes for Draperies with a Decorative Traverse Rod:

Single traverse rod	3-1/2" returns
Double traverse rod (over)	6" returns
Double traverse rod (under)	1" returns

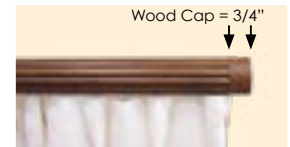

PROJECTION

Standard projections (from wall to face of the rod) for Decorative Traverse Rods are:

Single traverse rod	4-3/4" returns
Double traverse rod (over)	7" returns

WOOD CAP SIZE CONSIDERATIONS

When ordering the width of a Decorative Traverse Rod with returns consider the Wood Cap will extend beyond the width of the drape by 3/4".

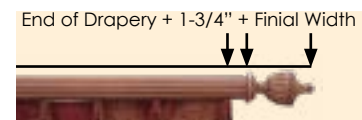

Finials

Horizons Decorative Traverse Rods available in all the styles and colors of the 2" Wood Collections on pages E8-E10.

FINIAL SIZE CONSIDERATIONS

The finial will extend beyond the end of the drapery by 1-3/4" plus the finial width. For Finial dimensions see pages E31.

Treasures Traverse Rod Split Draw for Ripplefold Drapery

E36

March 2019

Treasures Traverse System Specifications & Options

Treasures Traverse System

Treasures Traverse Rods are cord free baton draw 1-1/2" rods available for Pleated or Ripplefold drapery. They are custom cut to the exact size ordered and include a channel track, finials, brackets and screws. They are available in all the styles and colors of the Treasures Collection.

Bracket Sizes

Each set includes brackets.

Bracket Counts

Each set comes with the following number of brackets based on width. Additional brackets are available.

WIDTHS TO:	# BRACKETS:
48"	2
72"	3
96"	4
144"	5
192"	7

Size Limitations

Max Width:	192"
Max Width without splice:	96"
Minimum Width:	18"

Note: The ordered width of the Decorative Traverse Rod should equal the drapery width. See Finial specifications on this page to determine the total width.

Traverse System Options

- One-way or split draw are available.
- Baton draw only.
- Available for pleated or Ripplefold drapery.

Ripplefold Options

- Available for Ripplefold Drapery at 80%, 100% or 120% fullness.
- Available as overlap or butting.

Pin Settings

Recommended Pin Setting for pleated draperies with a Treasures Traverse Rod is 3/4".

Baton

The Treasures Traverse rods come standard with a clear acrylic baton available at 36", 48", 60" length. Please specify height when ordering.

Metal Batons in the same finish as the track may be ordered as an extra charge option. They are only available at 39-1/2" in length.
